

ABOUT US

🌿 Long ago, in hidden valleys where forests met rivers, there existed a rare and wondrous stone known as Verastone — a soft green gem streaked with golden veins, shimmering like dawn light on tranquil waters. Legends say it was carried by healers and wanderers, who believed it brought calm, harmony, and prosperity to those who held it close. ✨

The stone became a symbol of true belief: in nature, in love, and in the quiet strength of everyday moments. Its gentle glow was said to restore balance, reminding people to breathe deeply and trust the beauty of the present.

Just as the stone once brought serenity to the hearts of those who found it, Belivera's aromas are designed to transform your space. Each scent releases a gentle wave of warmth and tranquility, filling your home with the soft promise of peace.
